POWERING P&C INSURANCE

Fast, flexible, and configured on-demand...
Aspire powers P&C insurance.

- Policy
- Billing
- Claims
- Underwriting
- Document/Content Management
- Compliance Management
- Workflow/BPR
- Financial Reporting

Designed to handle the complexities of all lines of P&C insurance, the Aspire Suite is built on a cloud-based, modern technology platform which is flexible, scalable, and supported by Maple Tech's **Configuration-as-a-Service (CaaS)** which ensures systemic capabilities are deployed in a manner which most effectively fulfills each client's needs.

Maple Tech's Aspire Suite supports all lines of P&C insurance with robust, out-of-the-box functionality, ease of integration through pre-built APIs, and expertly managed implementations. Aspire puts fast and flexible back on the menu for:

- Core (Policy, Billing & Claims)
- Underwriting
- Document Management
- Compliance
- Financial Reporting

Available as a pre-integrated suite or as standalone components, Maple Tech's Aspire Suite allows P&C insurance customers to respond to market demands quickly by delivering system build-outs rapidly for even the most specialized implementations.

Aspire Policy

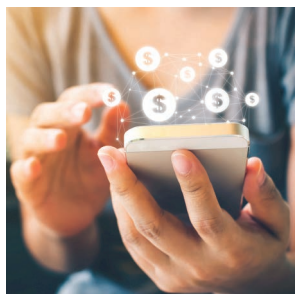

A highly-configurable, cloud-hosted, policy admin and product management system handling over 30 lines of P&C insurance, and in production in all 50 states and U.S. territories.

Maple Tech's Aspire Policy provides:

- Callouts to industry standard databases;
- Adaptable configuration capabilities;
- Automated generation of policy documents; as well as
- Support for omni-channel collaboration.

Maple Tech's Aspire Policy makes it easier to enter new markets and launch new or modify existing insurance products for greater profitability.

Aspire Billing

Flexible, rules-based billing functionality customizable for all lines of P&C insurance available via cloud hosting on-demand.

Maple Tech's Aspire Billing provides:

- Productivity and user error tracking capabilities;
- Comprehensive analytical reporting;
- Ability to generate invoices, statements and reconciliations; as well as
- Easy integration with third-party payment systems.

Maple Tech's Aspire Billing creates an instant audit trail, ensures optimum cash flow, and improves executive insights into overall business performance.

Aspire Claims

Modern, scalable claim administration and fulfilment functionality successfully implemented for almost every segment of the P&C insurance industry

Maple Tech's Aspire Claims provides:

- Immediate coverage verification;
- Export of data to configurable dashboards and commonly-used file types;
- Reduction of loss adjustment expenses (LAE) and fraud; as well as
- Improved catastrophe management capabilities.

Maple Tech's Aspire Claims delivers superior data retrieval capabilities for a lower total cost of ownership (TCO), and a better ability for process stakeholders to communicate.
